

Florida Academy of Family Physicians
2019 Legislative Session
Legislative Update
February 8, 2019

This past week was the first of the final three interim committee meeting weeks leading up to the legislative session commencement on March 5th.

Budgets were the primary focus of the week. Many Appropriations committees received presentations on the budget proposals recommended by Governor DeSantis. These presentations are the first step in the legislature's development of its own budget. Moreover, this week marked the deadline for members of the House to file specific Appropriation requests for local projects. Hundreds and hundreds of requests totaling hundreds of millions of dollars were filed just in the last several days.

Substantive legislative committees also met and worked on dozens of legislative bills, marking the informal start to the process of moving substantive bills through the legislative process. As of February 8th, 1,467 House and Senate bills have been filed for consideration during the 2019 Legislative Session. Legislation of interest to the FAFP is tagged and tracked as bills are filed.

Following is a brief summary of the key issues impacting the Florida Academy of Family Physicians.

2019 Doctor of the Day Program

The new 2019 application for the legislature's Doctor of the Day Program has been released. Now is the time for family physicians to volunteer to take part in this important program during each of the nine-weeks of the 2019 Legislative Session which runs from March 5 through May 3. FAFP's membership has maintained strong representation in Tallahassee to advance our advocacy efforts! We have already had a strong showing of members who have confirmed their participation in the program and have already been scheduled to serve on specific days. For further information about the program, please contact Jay Millson at jmillson@fafp.org.

Legislation of Importance to FAFP

Bills are marked with FAFP's position: **Support** **Oppose**  **Monitoring**

Influenza & Strep Testing

HB 111 by Rep. Rene Plasencia (R-Orlando) and **SB 300** by Senator Jeff Brandes (R-St. Petersburg) authorize pharmacists to test and treat for the influenza virus and streptococcal infections within the framework of an established written protocol of a supervising physician. The legislation requires pharmacists to maintain patient records for

a minimum of 5 years, to carry professional liability insurance, and to obtain certification. The bills require pharmacists to notify the patient's primary care provider within 2 business days after providing testing or treatment.
