

## **Florida Academy of Family Physicians 2019 Legislative Session Legislative Update February 15, 2019**

---

The legislature is one week away from finishing its interim committee process. While it is not quite working at the hectic pace of the soon-to-convene regular legislative session, many legislators are also trying to raise campaign dollars prior to the beginning of the legislative session when fundraising is prohibited. The FFM-PAC, with the guidance of MHD, has been involved by supporting key legislators and leadership on both sides of the isle. FAFP members' help is always needed and can be provide by texting "FFMPAC" to 91999 or by [CLICKING HERE](#).

As of February 15<sup>th</sup>, 2,037 House and Senate bills have been filed for consideration during the 2019 Legislative Session. Legislation of interest to the FAFP is tagged and tracked as bills are filed. The following is a brief summary of the key issues impacting the Florida Academy of Family Physicians.

### **2019 Doctor of the Day Program**

The new 2019 application for the legislature's Doctor of the Day Program has been released. Now is the time for family physicians to volunteer to take part in this important program during each of the nine-weeks of the 2019 Legislative Session which runs from March 5 through May 3. FAFP's membership has maintained strong representation in Tallahassee to advance our advocacy efforts! We have already had a strong showing of members who have confirmed their participation in the program and have already been scheduled to serve on specific days. For further information about the program, please contact Jay Millson at [jmillson@fafp.org](mailto:jmillson@fafp.org).

### **Legislation of Importance to FAFP**

Bills are marked with FAFP's position: ☒ **Support** ☐ **Oppose** ☐ **Monitoring**

#### ☐ **Influenza & Strep Testing**

**HB 111** by Rep. Rene Plasencia (R-Orlando) and **SB 300** by Senator Jeff Brandes (R-St. Petersburg) authorize pharmacists to test and treat for the influenza virus and streptococcal infections within the framework of an established written protocol of a supervising physician. The legislation requires pharmacists to maintain patient records for a minimum of 5 years, to carry professional liability insurance, and to obtain certification. The bills require pharmacists to notify the patient's primary care provider within 2 business days after providing testing or treatment.
